

# SELECTED FERGUSON TRACTOR PAINT COLOR SCHEMES

MODEL	PART	PAINT COLORS									
		1	2	3	4	5	6	7	8	9	10
<b>TO-35</b> (12/1957- early 1960)* (Tractor Red & Flint Gray Metallic)	Air cleaner & tube							x			
	Castings/axles/steering/battery platform							x			
	Fender mounting brackets & toolbox							x			
	Front hood emblem background										x
	Front wheel rims & rear wheel discs									x	
	Fuel tank, air cleaner & tube							x			
	*Dates are approximate	Generator, starter & distributor body						x			
	Grill							x			
	Hood, "chin piece" & fenders									x	
	Hydraulic control quadrant								x		
	Radiator				x						
	Fan, pulley & fan shroud							x			
	Rear wheel center disks									x	
	Rear wheel rims								x		
	Seat (pan & bucket)									x	
Seat spring & bucket seat bracket							x				
Serial number plate background				x							
<b>F-40</b> (Bamboo Beige & Flint Gray Metallic)  (Early in the production run a limited but unknown number of tractors had green rather than flint gray castings. The rest of the paint scheme is similar except that the fuel tank is painted green rather than beige. The hood decals were green rather than red.)	Air cleaner							x			
	Air intake pipe							x			
	Air intake screen				x						
	Castings/axles/steering/battery platform							x			
	Fender mounting brackets & toolbox							x			
	Front wheel rims & rear wheel discs						x				
	Fuel tank						x				
	Generator, starter & distributor body							x			
	Grill plate, lower (flat)							x			
	Grill plate, upper (flat with air cleaner hole)							x			
	Grill side panels (mesh)									x	
	Hood decals (sides)									x	
	Hood, fenders & grill access door						x				
	Hydraulic control quadrant								x		
	Radiator				x						
Fan, pulley & fan shroud							x				
Rear wheel center disks						x					
Rear wheel rims								x			
Seat (and bucket seat hinge)						x					
Seat spring & bucket seat bracket							x				
Serial number plate background				x							
<b>MF Paint Codes</b>  (Numbers in parentheses are the original MF paint code #s.)	1 - Ferguson Gray (M-1001)	x									
	2 - Ferguson Light Gray (M-1011)		x								
	3 - Ferguson Blue			x							
	4 - Semi-flat Black				x						
	5 - Green Metallic (M-1013)					x					
	6 - Beige (M-1027)						x				
	7 - Flint Gray Metallic (M-1025)							x			
	8 - Bright Aluminum (M-1042)								x		
	9 - Tractor Red (M-1017)									x	
	10 - Off White									x	
<b>Note on generators, starters &amp; distributor bodies:</b>											
Promotional literature, manuals, and other visual media sometimes showed these items as painted black and sometimes painted the colors of the castings. Often these were photos from pre-production prototypes. The color schemes shown here lean toward those used on production-line units. However, it is not unreasonable to assume that assembly sequences may have changed in mid-production for any particular model. Use of paint schemes shown in promotional literature and manuals is perfectly acceptable, depending upon the preferences of the restorer.
